

# MUHAMMED SUHAIR MK

FULLSTACK MOBILE APPLICATION DEVELOPER

## PROFESSIONAL SUMMARY

A passionate Flutter Developer with over 2 years of experience in building high-performance, cross-platform mobile applications. Proficient in Dart, state management (Provider, Riverpod, GetX, BLOC), and Firebase, focused on delivering clean, responsive, and user-friendly solutions. Possesses strong full-stack capabilities, with expertise in backend development using Python (Django and Flask), designing and implementing secure RESTful APIs, and working with SQL (MySQL, PostgreSQL, SQLite) and NoSQL (Firestore, MongoDB) databases for efficient data management. Proven problem-solver committed to delivering scalable, high-quality applications

## WORK EXPERIENCE

### Flutter Developer & Backend Developer | 2023-2025

TRYCODE Innovations, Calicut

- Designed, developed, and maintained reusable, clean, and scalable Flutter code across multiple client projects.
- Integrated REST APIs and implemented efficient state management using BLoC and Provider.
- Learned and applied Django REST Framework to design and implement backend APIs for Flutter applications.
- Built and deployed projects combining Flutter (frontend) with Django (backend) for real-world solutions.
- Worked on responsive UI/UX following Material Design guidelines to ensure seamless cross-platform experiences.
- Debugged, tested, and optimized applications for performance, scalability, and user experience.
- Collaborated with cross-functional teams to ensure smooth end-to-end product delivery.

### Flutter Developer | 2023

YNOTZ IT Solutions Pvt Ltd, Kochi

- Developed and maintained cross-platform mobile applications using Flutter and Dart.
- Implemented Firebase Authentication, Firestore, and Cloud Messaging for secure login and real-time notifications.
- Built modular and reusable components, improving development speed and reducing bugs.
- Integrated payment gateways, APIs, and local databases to deliver full-stack mobile solutions.
- Worked closely with designers and QA teams to ensure user-friendly and bug-free applications.
- Used Git for version control and participated in code reviews within an agile development process.

## ACADEMIC HISTORY

### Diploma in Computer Engineering

AKNM GPTC Thirurangadi 2020-2023

- Under Directorate of KTU (Kerala Technical University)

### Higher Secondary (Computer Commerce)

GVHSS OMANOOR

- Under Directorate of Kerala Government

## CERTIFICATION

**Flutter Mobile application development** - Udemy

**Python Web Development** - Maxlore innovations LLP, Calicut

## TECHNICAL SKILLS

- **Mobile Development:** Flutter, Dart, Provider, GetX, BLoC, Firebase (Auth, Firestore, Cloud Messaging, Realtime DB, Storage), Push Notifications, Google Maps Integration, QR Code Scanning, Responsive UI/UX with Material Design.
- **Backend Development:** Python (Django, Flask), RESTful APIs, Authentication & Authorization (JWT, OAuth), SQL Databases (MySQL, SQLite, PostgreSQL), NoSQL Databases (Firebase Firestore, MongoDB).
- **Web Development:** HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, REST API consumption. Cloud & Deployment: Google Play Store Publishing, Firebase Hosting,
- **Tools & Version Control:** Git, GitHub, GitLab, Postman, Thunder Client.

## SOFT SKILLS

Problem Solving | Debugging | Communication | Team Collaboration | Time Management | Adaptability.

## MAJOR PROJECTS

### INCO Benefit Points (Mobile Application)

- Developed a Flutter application for electricians to scan product QR codes, earn points, and redeem them for gifts.
- Implemented core features including gift redemption tracking, offers, notifications, profile management, and a help center.
- Integrated PHP APIs for backend data management and reward processing.
- Tech Stack: Flutter, PHP (APIs), Firebase (Authentication, Firestore, Cloud Messaging), Provider, REST APIs.

### Restaurant Food Delivery Application

- Built a comprehensive food delivery solution consisting of two separate mobile applications:
  - o User App: Enabled users to browse restaurants, place orders, make payments, and track delivery status.
  - o Delivery Boy App: Functionality included accepting orders, viewing assigned deliveries, updating order status, and real-time tracking.
- Integrated complex features like branch-specific cart logic, order assignment, push notifications, and live order updates.
- Developed the backend using Django REST Framework with a MySQL database.
- Tech Stack: Flutter, Django (REST APIs), MySQL, Firebase (Notifications, Authentication).

## PERSONAL DETAILS

Date of birth : 13.05.2002  
Nationality : Indian  
Passport Expiry : 29.06.2033  
Language : Hindi, English  
Address : Malappuram, Kerala, India

## DECLARATION

I, Muhammed Suhair MK do hereby confirm that the information given above is true to the best of my knowledge and belief.
